SITUATION

Relating to Pressmen's Strike Is Becoming Serious.

Chicago, March 16.—(Spl.)—The Pressmen's strike situation from the publishers' standpoint, does not look so hopeful today, as there are prospects that the strike will extend to other labor organizations. PIANOS.

For some time past I have been accumulating square pianos until I have more on hand than I have room for. If you want a bargain in a square piano you never will get an opportunity like I shall offer in the following list:

One Hallett & Company square, seven octave, genuine rose-wood case, worth \$50-\$100 buys it; \$5 cash and \$1 per month until paid for.

One Gilbert & Company square, seven octave, rose-wood case, worth \$40-\$80 buys it; \$5 down and \$1 per month.

One Hallett & Company square piano, rose-wood case, seven octave, \$8 buys it; \$5 cash and \$1 per month until paid for.

One Lemuel Gilbert square, rose-wood case, six octave with keys in good condition—\$7 cash buys this piano.

One Gale Piano, six octave in good condition—\$6 cash.

One Chickering square piano, case nicely varnished, in good condition, for \$5 cash.

One John Halmers square piano, six octave, ivory keys, goes for \$4.

One Geo. Hughes square piano, six and one half octave goes for \$3.

One other musical instrument, five octave, goes for \$1.

Now, I want to sell these square pianos and you never will get such another opportunity in your life. I shall burn up all these squares left after Tuesday. Even if you have no use for a piano, you can put one of these in your parlor and when company comes you can have something for them to play on. There is no store in Northeastern Ohio that will furnish the bargains in pianos and organs that are included in this list.

REJECTED!

IT IS but a few years since Insurance Companies insisted on a chemical analysis of the fluids of the body of applicants desiring insurance in large amounts. Now, every applicant must undergo such examination, no matter how small the amount of insurance asked for. The Insurance Companies have learned wisdom by experience. They know for a certainty that the only sure way of detecting Bright's disease in its first stage is by a chemical analysis and they govern themselves accordingly. Many men applying for insurance and finding themselves rejected, are dumbfounded when told that they have kidney disease. Why? Because they look and feel well, suffer no pain, and have a good appetite. But the unerring microscope in the hands of the intelligent physician, has unmistakably shown the beginning of the end, unless repaired, of the breaking down of the delicate tissues of the kidneys. Happily, if taken in time, there is a cure for kidney disease. We say this with entire confidence, because thousands have so testified, and hundreds have obtained life insurance following a course of Warner's Safe Cure, after having previously been rejected because of incipient Bright's disease. Men, do not leave your dear ones dependent through your own carelessness!

Write Warner's Safe Cure Co., Rochester, N. Y., today for free sample of Warner's Safe Cure and full particulars how to proceed to secure an absolutely correct microscopic examination.

HOWL.

"Wisdom" Posters Starts It.

They Were Printed In Cleveland.

Republican Candidate Scored.

Mr. Doyle Sends Money to Out of Town Workers.

Ignoring the concerns which help to make Akron a manufacturing and business center, Candidate W. B. Doyle has secured from Cleveland a great number of small posters which he has caused to be posted up, telling the people to "Be wise in their own Wisdom."

The Doyle brand of wisdom as exemplified by his going to Cleveland to buy that which Akron firms could have furnished just as well, is on a par with the wisdom of the Czar's other proxies in ordering riot guns and other articles at different times, through out of town concerns—giving them the profit which rightfully belonged to those who pay taxes in this city.

This particular kind of "Wisdom" has raised a howl even among Republicans. As business men or employees of concerns which do business here, they do not like such discrimination against Akron industries and workmen.

There is no truth in the argument that the posters could not have been printed in this city. Mr. O. D. Capron and others stated Saturday that the work could have been done here and at other shops than the Werner Co's, even if Mr. Doyle had reasonable objections to patronizing that concern.

"For my part," said Mr. Capron, "I like to see loyalty to Akron. In 31 years I have bought but one suit of clothes outside of Akron. I do not like prize fighting, but if there is going to be a champion, I want it to be Ruhlman. I have no use for those who would tear down this city to build up another."

Attention of readers is called to the advertisement, in another column, of the Akron Tin and Furnace Co., of 1503 South Main st. This establishment has by prompt and efficient work, and handling only the best wares, made for itself an excellent reputation and acquired an extensive trade.

Read the Democrat's People's columns on the seventh page today. The number of want ads, houses for rent or sale, etc., carried by the Democrat, has increased more than 500 per cent within the last year—a proof that the Democrat's advertising brings results.

THEY MET HIS REQUEST.

That fool Sawneybinks was forever singing that song "woulding that he were a bird!"

—till the boys one day went for him and made him somewhat resemble a crow by means of tar and feathers. He doesn't want to be a bird any more, he says.

Waiting For His Turn.

"Speaking of drinking as a cause for headaches," said an old practitioner, "reminds me of a trip I took several years ago with a special train full of western physicians going to the annual meeting of the American Medical association in Philadelphia.

"On such occasions as this, with perhaps 150 physicians congregated in a special train, a good many manufacturers of wines, liquors and carbonated waters are anxious for the opportunity of putting bottled goods on ice, with a representative in charge to see that samples are dispensed at just the right temperature.

"On this particular occasion I remember that one firm dealing in mineral waters made his bid. He recognized that it was not his deal, and he started through the train, beginning at the rear end of the baggage car. With a profound bow to all present he said: "Good night, gentlemen, good night, but I'll see you in the morning!"

"He went through the train with that, making the hit of the whole trip. My greatest wonder at it, too, has been that it has not been seized upon as an illustrated advertisement for his house."—Chicago Tribune.

His Only Real Pleasure.
"What good does your money do you, Mr. Armour?" a friend once asked P. D. Armour, according to the Washington Star.
"That is a question," Mr. Armour replied. "I often ask myself. I was raised a butcher boy. I learned to love work for work's sake. I must get up early now, as I have done all my life, and when 9 o'clock comes, no matter what's going on at home, I must get to bed. And here I am. Yes; I have large means, as you say, but I can't eat as much as you'd expect, I can't sleep as much, and I can hardly wear any more clothes than he. The only real pleasure I can get out of life that you'd expect a clerk with his limited means can get is the giving now and then to some deserving fellow without a soul knowing it \$500 or \$1,000, giving him a fresh start upward without making the gift a hurt to him. That's the only real pleasure I get out of life. And as to possessions, the only thing I sometimes feel I really own are my two boys and my good name. Take everything else from me, leave me them, and I would yet be rich. I wouldn't care a snap for the rest. We would soon together make enough to keep the wolf a long way from our door."

No Venture About It.
"Is this your first venture in matrimony?" the preacher asked while the bridegroom was out in the vestibule giving certain instructions to the best man, who was also his head clerk.
